PROJECTS

WEB DEVELOPMENT PROJECT

AAA -Ascend Aspire and Achieve

- A responsive and User-friendly platform dedicated to helping individuals overcome tough times and achieve their life goals.
- Developed a content management system , where user can create ,update , delete ,manage their content.
- Used **EJS** for templating and creating multiple pages
- Custom lists and custom pages are created using **express** route parameters.
- Used Postgres for database services.
- Used **Bootstrap** for creating the front-end and used **Mailchimp API** for managing the audience after registration.
- Also , added a BOT feature , for giving Daily Manifestation Quotes to users.

Personal Chatbot—

- Developed using javascript to provide detailed information about myself , including my social media links and personal details.
- Operates similar to a Bot, responding to specific commands or keywords with relevant information.

OLYMPIC GAMES DATABASE PROJECT-

- Designed a database management system for storing Information about olympic games , event organization and every minor detail (players , sponsors , sports , etc).
- Also tracks various amounts of services and equipment needed during the games.

INTERESTS

- **On my way to develop a website that educates and inspires individuals on life values , manifestations and personal growth.**
